

IC BRONZE/10 SUB

The workhorse of Triad's custom subwoofer line has been dramatically improved. In an otherwise all-new subwoofer lineup, we have maintained the same excellent long-throw 10" driver and enclosure, but switched to the new RackAmp 350 which delivers nearly 50% more power than its predecessor for even more output and headroom than before. The new amp provides simple "plug-and-play," and EZ set-up.

You can have great performance right out of the box in nearly any room. Because this subwoofer is almost exclusively used for ceiling installation, we have also changed the name from InWall to InCeiling. The G-size grill is the same as many other Triad InCeiling speakers, allowing for a clean, consistent look. And we build all Triad speakers to order, and offer custom paint matching to the paint sample or paint number that you supply.

The InCeiling Bronze/10 Sub may be used in multiples, each with its own amplifier, in home theater applications. We know of one installation that uses sixteen of them! Or, a single Bronze/10 may be used for a den, bedroom, guest room, family room, or office. At low listening levels or for background, a discretely placed InCeiling Bronze/10 Sub adds fullness and warmth, and at higher levels, it adds dynamics and weight. Other custom versions of the Bronze Sub include the InWall Bronze/4 Sub and the InWall Bronze/6 Sub.

 - 5V – 20V Trigger
 - IR with discrete controls
 - Auto-sense
 - Adjustable Trigger Voltage
 - Adjustable Off Delay
 - Optimize multiple subs for best performance
 - Input Gain matches levels.
 - Delay time aligns subs together for better impact

Enclosure

Fully engineered, Premium MDF enclosure.
 Acoustic Suspension.
 Powered subwoofer.

Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
