IR GOLD LCR

Serious home theater requires serious speakers–speakers capable of faithfully reproducing pyrotechnics, nuance and everything in between. Triad is proud to introduce your ticket to audio realism, the InRoom Gold LCR. Triad's all new InRoom Gold LCR features proprietary drivers and an over-built, acoustically inert enclosure for low distortion, high sensitivity, and high power handling. The performance begins to approach that of the formidable Triad InRoom Platinum LCR, but at one-third the price.

The Gold LCR mates well with the best separate electronics but also is compatible with better A/V receivers, and is equally adept at reproducing music and movie soundtracks. Even in large home theaters, the InRoom Gold LCR's high sensitivity and high power handling create an impressive and dynamic home theater experience, while always maintaining composure. To visually blend into your decor, the InRoom Gold LCR is available in a variety of book-matched real wood veneers, as well as custom matched paint and veneer options.

Category: Home Cinema
Tag: InRoom

Features

Triad AcoustiPerf metal grill.

Enclosure

Fully engineered, Premium MDF enclosure.
Acoustic Suspension.
3-way design.

Finishes

Triad's Basic, Real Wood Veneer & Custom Finishes are available for this product. The standard finish for this product is Black paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish. The veneer finishes are made from real wood and coated with an enamel clear coat.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
